

ELECTRONIC and OPTICAL PROPERTIES of Ag₂SiS₃ CHALCOGENIDE CRYSTAL: DFT STUDY

This study is devoted to first principles study of Ag₂SiS₃ semiconductor crystal. The Electronic structure, and optical properties will be presented.

Primary authors: Mr RUDYSH, Myron; SHCHEPANSKYI, Pavlo; Prof. STADNYK, Vasyl (Ivan Franko National University of Lviv); Prof. BRIK, Mikhail; Dr FEDORCHUK, Anatolii; Dr PIASECKI, Michal

Presenter: Mr RUDYSH, Myron

Track Classification: Physics of Semiconductors and Dielectrics, Semiconductor's Devices
